EXPERIENCE

3+ Month
COMPANY | Broadcast Engineering Consultants India Limited
September 2022 – October 2022 | Indore India
- Learn the structure of HTML up to advance level.
- Good understanding of CSS animation.
- Built realtime base project with the help of HTML, CSS, Javascript, React, API.

PROJECTS

NEWS REACT WEB-APP | Sep 2022
- This News App is built using React and integrates the News API to display the latest news headlines. Users can browse current news stories and filter them by various categories such as entertainment, sports, technology, and more. Additionally, users can select their preferred country to view news specific to that region.

BLOG WEBSITE | June 2024
- Developed a full-stack blogging site using React, Redux, Appwrite, and Tailwind CSS. Implemented user authentication, including sign-up, email/password login, and Google OAuth. Utilized React Hook Form for efficient form handling. Users can create, read, edit, and delete posts. All posts are publicly viewable, but only authors can edit or delete their own posts.

VOLUNTEER

- Host of the curriculum activities organized by the school.

ACHIEVEMENTS

- Earned certificate in Ethical hacking workshop at Appin Technology.
- Earned Certificate in MERN Stack Technology by BECIL
